consulting

think tech.
think enabling.

the tech practice approaches IT from the perspective of enabling growth and change. Combining our IT and business expertise, we provide low-cost, **high-quality tech consulting** & **custom software development**, that help companies achieve their business objectives.

technical consultant, G Monickaraj, with more than 35 years of experience has unique blend of IT and Telecom experience. Has been CTO for large telecom companies like RPG, Airtel and Etisalat and has developed and implemented applications for prepaid business and CRM. Spearheaded large transformation IT projects during his tenure with Airtel
